Suffering from Painful Diabetic Neuropathy?

Finally there's an FDA-approved nondrug treatment. Ask about a temporary trial.

Nevro HFX is a small device that works inside your body to disrupt pain signals to the brain.

- The device is placed in a same-day outpatient procedure.
- There is a one-week temporary trial so you can see if it works for you.

"I can finally sleep at least a good eight hours. I don't feel tired when I wake up in the morning. I feel like I'm ready to jump out of bed and take on the day."

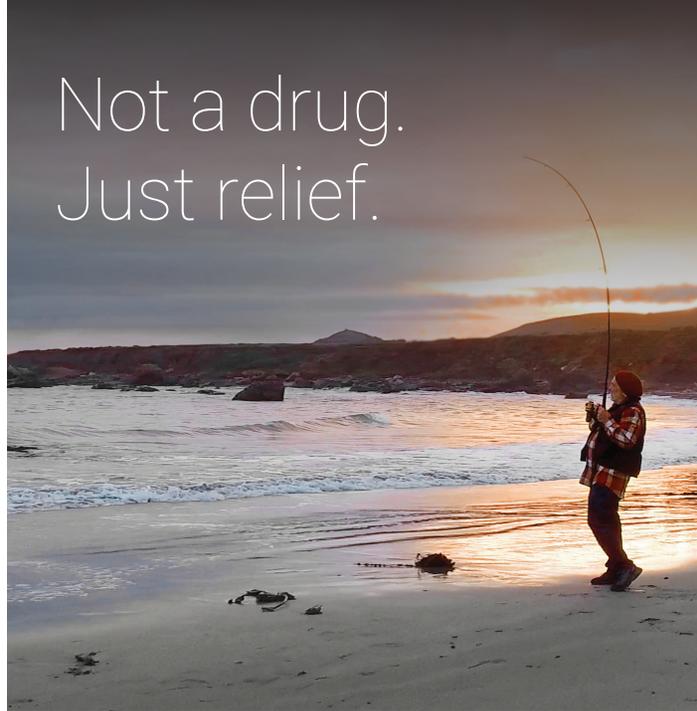

–Mindy

"My whole attitude to life has changed, my whole demeanor has changed and all for the better. I feel like I have a future. I want to live. I want to live longer and grow old with my grandchildren."

–Neil

Not a drug. Just relief.

8 out of 10 people experience substantial long-term relief¹

Proven to decrease pain by an average of 77%¹

Most people report reduced numbness, burning and tingling sensations

Significantly improves sleep

Have you tried multiple medications or therapies and nothing seems to work?

Check if these conditions apply to you:

- Diagnosed with Diabetes
- Diagnosed with Diabetic Neuropathy
- Have tried 2 or more prescription medications, like gabapentin or pregabalin
- Pain of 5 or more on a scale of 1-10

Do you experience:

- Numbness
- Burning
- Tingling
- Cold sensations

If you checked any of the above, talk to your doctor to see if Nevro HFX might be right for you.

Nevro HFX™* is **the most effective** treatment for shooting, burning, pins and needles pain associated with diabetic neuropathy – providing ongoing relief where conventional treatments fall short.
